## Enthusiastic Convention of U.F.W.A. Held in Arrowwood Friday

Mrs. Warr, Provincial President of U.F.W.A. Present,  
Also Mrs. J. C. Buckley, Director for Bow River  
Constituency—80 Delegates and Visitors in  
Attendance at the Conference

A most enthusiastic U.F.W.A. conference met at the Church of the Brethren Friday, June 26th at 10 a.m. About 80 delegates and visitors were registered at the Conference.

Mrs. J. C. Buckley of Gleichen, Director for Bow River Constituency, called the meeting to order and proceeded with a most interesting program. Reports were given from Berrywater, Milo, Reid Hill, Kirkdale, Mayview and Arrowwood locals. All reported a very keen interest in U.F.W.A. work and various schemes of raising money to pay dues and to carry on were given. The Berrywater local in true parliamentary style had drawn up a budget and suggested ways and means of balancing the same.

The members of the Milo Local are keenly interested in Co-operative buying and have arranged to exchange wheat at street prices for B.C. apples and other fruits at wholesale prices. At noon the Arrowwood ladies served a delicious luncheon to all present. The tables were tastefully decorated with Alberta's emblem, the wild rose. The basement of the church proved to be an excellent place for serving the ladies. It was delightfully cool and the ladies enjoyed a very pleasant hour chatting with neighbors and friends.

During the morning session Gladys Leonard gave two splendid readings and Mrs. Henry and Mrs. Journey played a duet entitled "Qui Vive."

The afternoon session was opened with a delightful poem of Edgar Guest's, given by Mrs. R. Shatto, followed by her most amusing reading, "Setting a Hen."

Mrs. Warr, of Wetaskiwin, president of the U.F.W.A. for Alberta, stopped off for the Conference on her way home from Winnipeg. The main topic of her address was "Political Economy." She dealt with the Banking System, Gold Standard and Distribution of commodities. While they are burning millions of pounds of coffee in Brazil thousands of people in North America are deprived of their morning cup. While we sell our wheat for 25c per bushel thousands of peasants in Europe have forgotten what white bread tastes like. Truly the world is ready for a new economic and social order. In our efforts to affect the same we must guard against ruthless methods which bring heartaches, sorrow and further trouble.

While we have unrest and unemployment is not yet considered a national crisis. In the event of a war money was voted immediately but today thousands are still dependent upon some characteristic organiza-

tion for their food and clothing. In her closing remarks she urged the women to go on with their work endeavoring to make it as beneficial to our fellowmen as possible.

It is to be hoped that we shall have a handicraft exhibit at our next Conference.

During the afternoon a ladies' quartette gave two delightful numbers. Mrs. Parnell favored the ladies with a piano solo.

Two important resolutions were dealt with, one asking that a diploma for Practical music of higher division or junior grade be allowed to substitute for an optional unit on the high school course. At the present time only a diploma in theory or harmony will be considered. Most children in rural schools do not have the advantage of training in theory.

Another resolution from Berrywater Local asked the Dept. of Education for correspondence courses in high school units as many children will not be able to go away to school this year but feel the need of further education to fit them for better times ahead.

Mrs. McBride, in her kindly way, expressed thanks to all those who assisted with the Conference. After adjournment ice cream and cake were served.

### Local and Personal

J. Hesketh was a Calgary visitor Friday.

Mr. and Mrs. F. C. Miller were Calgary visitors last Saturday.

Mrs. C. G. Taylor was a Calgary visitor Friday and Saturday.

Lester Sawyer of Caresland is visiting at the home of his aunt, Mrs. N. J. Lord.

Mr. and Mrs. R. E. Hill were entertained to Sunday dinner at the home of Mr. and Mrs. G. Jones.

Mr. H. McCullough left this morning for his home at Aldersyde where he will spend a few days before attending the Summer School at Edmonton.

Mrs. M. H. Ward was a visitor to Calgary Thursday and was accompanied home by her daughter, Miss Shirley who has been visiting in Calgary.

On Wednesday evening the local High School girls softball team journeyed to Olney to play a return game. It was a very exciting game but the local lost to Olney by a score of 12-11. The Arrowwood team was handicapped by being two players short.

## Farewell Party for Miss I. MacLeod

Tuesday evening last a number of the younger folk assembled at the picnic grounds at the river for a weiner roast and farewell party to Isabel MacLeod who is leaving Arrowwood. A hearty appetite was early developed by a strenuous game of softball which ended in a very close score. Gathering around the camp fire, everyone enjoyed the pleasure of roasting "hot-dogs" and soon everyone was filled to capacity. On behalf of the young people, E. Ross expressed regret at seeing Miss MacLeod leave and wished her luck, success and happiness in forthcoming years. Those present were: the Misses Carol and Eileen Chrestenson, Willa Leith, Isabel MacLeod, Isabel Mackie, Leoma Spencer, Alice Archambault, Isabelle MacLeod, Mary Mitchell, Elma Connell and Messrs. Howard Tharle, Ed Ross, Earl Larson, Allan Phillips, Harry McCullough, James Chisholm, and Jack MacLeod.

## Mossleigh to Celebrate on Mon., July 4

Mossleigh is holding its annual celebration on July 4th for which a good program of sport events has been arranged, three games of softball, baseball, basketball and races. A dance will be held in the evening.

## Calendar Shows Crops Ripening the Year Round

We are so used to thinking of world events in relation to east or west that it is really refreshing to consider the swing of harvest time the year round from north to south. Here's how it swings:

January: Argentine, Uruguay, Chile and Australia.

February: Upper Egypt and Southern India (end of harvest in southern hemisphere and beginning of harvest in northern).

March: Egypt, Tripoli, Morocco and India.

April: Persia, Mesopotamia, Arabia, Asia Minor, Syria, Cyprus and Mexico.

May: Algeria, Tunis, Central and Southern Asia, South Carolina, Georgia, Alabama and Louisiana.

June: Italy, Spain, Portugal, Greece, Turkey, South of France, North Carolina, Georgia, Arkansas, Texas, Virginia, Indiana, Illinois, Kentucky, Tennessee, Oklahoma, Missouri, and Kansas.

July: France, Austria, Hungary, Roumania, Bulgaria, Ser-Croat-Slovene State, Switzerland, Southern Russia, Southern Germany, South of England, New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Missouri, Nebraska, Kansas and Oregon.

August: Southern Canada, Russia, The United Kingdom, Germany, Belgium, Holland,

### BASEBALL

The baseball game between Arrowwood and Carseland on June 22nd proved to be a one sided affair after the first inning. Bowman pitching for Arrowwood had little difficulty in retiring Carseland in the first inning, while Moore of Carseland was hit by McCullough, Smith and Bowman, to make the first run of the game. Carseland were held scoreless until the sixth inning when they scored twice on errors. Arrowwood had a big inning in their half of the second when they scored 7 runs. Phillips of Carseland finished for Carseland. The game was called at end of the seventh.

Arrowwood—Bowman p, M. Norton c, Hales 1b, E. Norton 2b, McCullough ss, F. Miller 3b, Archambault lf, Smith cf, M. Miller rf.

Carseland—Moore p, Field 1b, Garneth 2b, Cole ss, Gilbert lf, Woodrow 3b, Cole rf, Clark cf. Umpire—Dr. Leisemer

Score by innings  
Arrowwood 1 7 2 0 0 2—12  
Carseland 0 0 0 0 2 0—2

### SOFTBALL

Considerable enthusiasm was shown locally last Monday evening when the Arrowwood nine tried conclusions with the A. G. Telephone repair crew's team. The first game developed into a very fast and close game with Burris pitching beautifully for the locals. At the end of the ninth inning Arrowwood was leading 5-4.

Immediately following a second game between the same two teams was encountered. The Arrowwood boys hit freely and the sensational pitcher of the telephone nine had great difficulty in controlling his offerings. Among the telephone crew were such popular hockey players as Don Kenny, Bobby Marshall and George Seamen.

Arrowwood Line-up: E. Mason c, Burris p, Bowman 1b, McCullough 2b, C. Beagle 3b, D. Vancil s.s., Clarke lf, Cary c.f., D. Bowman r.f.

### Card of Thanks

The Ladies Guild of the United Church take this opportunity of thanking Mr. Lawrence Larsen of Larsen Implements for assisting them with the erection of their booth on Sports Day.

Commemorative postage stamps will be issued by Canada in connection with the Imperial Conference.

Denmark, Minnesota, North Dakota, South Dakota, Montana and Washington.

September: Sweden, Norway, Siberia, Northern Russia, Canada, North Dakota and Montana.

October: Sweden, Finland, Northern Russia, Northern Canada, Norway, Alaska (end of harvest in northern hemisphere and beginning of harvest in Southern).

November: Peru and South Africa.

December: Burma and Argentina.

## Interesting Letter From Mrs. L. Roe

Following is a letter received by Miss Kathy MacLeod from Mrs. Roe who, in company with her husband, parents and brothers, are enroute by caravan to the Peace River district. Dear Kathy:

How's business? Fine, I hope. If the weather is as hot with you as it is here then you must be selling lots of ice cream.

We are enjoying our trip fine and getting to be quite good campers. I never did camp out very often so it is quite interesting—but I don't enjoy the pests such as mosquitos (they are awfully big), and the sand flies (they are awfully small). Nor do we like to see the bull dog flies, ear and nose flies, heel and ear flies bothering our horses. Yes, there really are all those pests.

The country is nice—trees, flowers, butterflies, birds and lakes. The Slave Lake is 74 miles long and at the widest point 15 miles, and the fish—well you'd think I was telling a fish story.

We saw two jumping deer yesterday morning and caught sight of what we think was a moose, about a quarter of a mile away. We've seen no bears but have heard of them going into pig pens and gardens.

On the way to Edmonton, which we reached the last of May, we saw the following towns, Gleichen, Rosebud, Standard, Drumheller, Munsen, Morrin, Roughly, Scollard, Munsey, Caprona, Big Valley, Fenn and Stettler. North of Stettler we were held up three days and had a real good time. People were awfully nice to us all the way up but we got to know the people around Stettler best. We went to a dance in a school house a couple of miles out of Stettler with people by the name of Cunninghams. We had five different families visit us during our stop there and were out to dinners and for the evenings a couple of times.

On the 24th of May we started on from Stettler passing through Red Willow, Donalds, Meeting Creek, Camrose, Hay Lake, New Serepta and were in Edmonton at 3 o'clock the last day of May and we surely enjoyed our visit there—dinners, lunches, teas, shows etc.

We stopped at St. Albert for the night of the 3rd of June close to the farm where I was born. On Saturday went on to Mornville where we stayed over Sunday and visited people we knew. Lyall, Bill and I went to Cardiff Saturday, and saw two baseball games on Sunday.

On June 6th we passed on again and through the towns of Legal, Vimy and a few little stations until Athabaska on June 9th, and here our first accident. Poor wee Sarger was run over. He ran out on the road and a car ran over him, killing him almost instantly. As Lyall buried him the church bells rang in Athabaska.

Mr. and Mrs. Weins passed

## Subsidized

And so the battle wages pro and con. A few weeks ago the Calgary School Board banished cadet training. The vote gave a bare majority but sometimes progress cannot be unanimous. At the time we would like to have congratulated the chairman and his fellow members but no doubt he was overwhelmed with correspondence. And as would naturally be expected, the hatchet has been raised.

That there have been good features of the cadet movement none but the blindest could fail to discover—please note the superlative for even the blind could see. Patriotism, discipline, physical training group action, etc., are all there and presented in such a way as to create enthusiasm. Where we do go astray—and here also there are three degrees of blindness on the other side as well—is the mistake that cadet training ALONE will give these results. But there is a self-sacrificing patriotism which has paid the "supreme sacrifice" but knows neither bands nor banners. And even squad drill can be taught without rifles, real or substitute. And the very worst indictment that succeeding generations could bring against us is that we were unable, we lacked in original resourcefulness, to discover and create a "moral equivalent" for war or its tactics.

There is a large grant made to schools giving this training and Calgary in a time of financial need has scrapped it. But if state aid for religion is bad, military support for education is worse. At the present our schools are too much under sectional control. Much progress has been made but a look into L. P. Jack's idea of Dominion Status for education is well worth investigating. And how far would \$2,500 go in diminishing the taxes paid by the citizens of Calgary for the debt accumulated in the last war. And the next one must be worse. Six months' war would create debt larger than the total amount even paid by the Department of Militia for school grants.

And what of the reverse side?

"The seamy side of war is something which the army of no nation can afford to have extensively advertised," begins an article in Time, and in speaking of the request made by the Publisher Putnam to the War Department for photographs showing the horrors of war. General Carr to whom the request was made refused to release a single horrible picture. "To give out such pictures would be against public policy," he stated. "It would not be ethical. It would not be decent. Think of Gold Star Mothers the country sent to France. . . . These Mothers carried home on their minds beautiful pictures of these well-kept resting places. . . . The War Depart-

ment has a moral obligation to Gold Star Mothers, so only those photographs which show the pleasant features of war can be released. In spite of this refusal Mr. Putnam has succeeded in getting together 89 pictures of gory, grisly, war realities for his book 'The Horror of It, Camera Records of War's Gruesome Glories.' "

So the real issue is, did cadet training have anything to do in bringing on the last war. And whether or not the next war is inevitable matters not, if cadet training helps one iota toward bringing it to pass. . . . Enough said.

UNUS SOLUS

## Here and There

Captain L. D. Douglas, R.N.R., recently named commander of the Pacific speed Queen, the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 26,000-ton charge alongside Pier B, Vancouver within 44 minutes of the Pacific record.

His Excellency Rana Phagat Chandra Bahadur, Rajah of Jubbal, was a traveller on the Empress of Japan from the Far East, recently. He might have been taken for any business man but for the presence of his wife, daughter of the Maharajah of Kathlaad, India, who was attired in Indian garb.

Crop conditions in western Canada are most encouraging and given normal weather conditions the quantity and quality of the harvest will go a long way towards restoring confidence and prosperity. Grant Hall, vice-president of the Canadian Pacific Railway, stated recently on his return from a tour of inspection of the company's property.

Final figures of butter production in Alberta for 1931 amount to 22,957,922 pounds, which is more than 600,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their forage crop areas.

Major "Bill" McGeehan, one of America's best known columnists, and Lionel Hitchman, veteran defence man of Boston Bruins, landed a 19 and a 30 pounder salmon from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Cain's River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudahy, of Milwaukee, hunting across the Great Divide near Banff, and faced by a furiously charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudahy has hunted in India, Africa and Alaska, but said he had never had the thrills he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre—Montreal—the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and sorrowing friends from virtually all walks of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with His Honor James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb, of Winnipeg, and many officers of the company in attendance. His Grace Archbishop Matthews, assisted by the Rev. H. S. Boyd, of St. Luke's Anglican Church, conducted the funeral service. 347.

There were 447 moose and 9594 deer shot in New Brunswick last year, according to figures contained in the annual report of Chief Game Warden H. H. Ritchie to the provincial Minister of Lands and Forests. There was also a very successful partridge season with a bag of 44,469 birds.

Warmer weather and generally favorable conditions point to normal development of the western wheat crop, according to the report of the agricultural department of the Canadian Pacific Railway. Virtually all of Manitoba's seed is in and Saskatchewan and Alberta seeding will be completed by the end of the third week of May.

# Health Service

OF THE

Canadian Medical Association

Edited by

GRANT FLEMING, M.D., ASSOCIATE SECRETARY

## The Child's Heart

From the beginning of life, the heart must continue to function if life is to be maintained. The existence of every part of the body depends upon the blood which is brought to it by the pumping action of the heart.

It is obvious that all parts of the body will suffer if the heart fails to function normally. The health of the body as a whole is closely related to the efficiency of the heart.

When the child is born he may not have a sound heart. The condition known as "blue babies" is due to defective structure of the heart. Babies with poorly formed hearts do not a rule survive, and when they do they require special care. Among the children born with perfectly formed heart there are some who later develop or acquire some abnormal heart condition. The disease of the heart in children is serious. It seems as if the undeveloped heart of a child is not able to withstand the stresses and strains which can be met by the mature adult heart.

It is also to be remembered that in childhood rapid growth goes on and this makes an extra demand upon the heart. At the same time the heart itself is developing into a large adult organ. For these reasons it is obvious that during childhood the heart needs to be protected from those conditions which may damage this vital organ. Children with heart disease must be guided so that their lives will be conducted with more ease than is the life of the normal child. Greater care must be taken as regards food, fresh air and sunshine.

We all agree that it is much better to prevent than to cure. In order to prevent heart disease, we must eliminate as far

possible the conditions which lead to it. Because rheumatic fever is the outstanding cause of heart disease in children, great progress in the prevention of rheumatic fever. This means the treatment of diseased tonsils, teeth or other parts. Attention must be given to general health through proper food; plenty of fresh air and sufficient rest. It is by building up a strong and healthy body and by giving prompt attention to any abnormal conditions which arise that we may hope to prevent disease in childhood and bring the child into adult life with a sound body.

## Here and There

There are 77 mills in Canada in the cotton textile industry from which the annual value of production, according to latest available figures, is \$58,587,366.

An outstandingly popular sport at Banff is the bathing in the hot sulphur pools operated by the Banff Springs Hotel and the Canadian Government. Last year 89,000 people used the pools.

Two famous globe-trotters, Dr. Roy Chapman Andrews, noted anthropologist, and Bob Davis, New York Sun's world-girdling correspondent, came together at Victoria recently on Canadian Pacific liner Empress of Canada, the former on his way to Peking and the latter travelling with Mrs. Davis to Honolulu.

Success attending the inaugural cruise of S.S. Princess Alice last year to northern British Columbia and Alaska has led the British Columbia Coast Steamship service to provide another special Alaska cruise with the S.S. Princess Charlotte, leaving August 9 from Vancouver. It is announced by E. F. L. Sturdee, general passenger agent, Canadian Pacific Railway.

Capital, Labor, the learned professions, diplomacy and business were all represented in the passenger list of the Canadian Pacific liner Empress of Australia on arrival at Quebec recently. The list included Sir Charles Gordon, president of the Bank of Montreal; Tom Moore, president of the Trades and Labor Congress of Canada; F. E. Meredith, K.C., Dr. Moser, consul-general for Czechoslovakia, and Colonel Hercule Barre, Canadian Government Trade Commissioner in Paris.

## Ready for Your Fields— —A New John Deere Disk Tiller with a Field Proved HEAVY-DUTY POWER LIFT

A new John Deere Disk Tiller is ready for your fields. Ready with all the field-proved features that made the old John Deere Tiller the choice of many farmers in this region—plus a heavy-duty power lift of the improved, long-lived John Deere type.

With this important improvement the John Deere Disk Tiller is as easy to handle as a tractor plow. Just a tug on the handy trip rope as you drive along sets the lift to work, raising the disks clear of the ground for turning, backing or transporting; another pull drops the disks to working position.

In addition to the time-saving, effort-reducing advantage of the John Deere heavy-duty power lift, you get the thorough work and great strength for which the John Deere Tiller has always been famous.

Stop in next time you are in town and get acquainted with the new John Deere Disk Tiller. We want to show you all of the features that mean satisfaction.

### Interesting Letter from Mrs. L. Roe

(Continued from page 1)

us when we stopped for lunch before this. They had a cup of tea with us and told us that you were having lots of rain. Told us all the news they could think of. They were to wait for us here in Kinuso or High Prairie. I guess they went on so we are going on this afternoon.

At Smith Landing on June 13th we crossed the ferry. It was fun and then we hit no towns until Slave Lake.

We have met up with three outfits—two horse outfits one from Brooks and one from Bassano. The other outfit is slow and we've passed them for they have cows and come from near Vulcan. One of the horse outfits (Bassano) have two men riders and a woman drives the wagon and she has two little kids. The Vulcan outfit has two wagons, two men and a woman and four little kids. That's when it would be no pleasure to trek.

We are going on and see the Sturgeon Lake country now I think. So far the land is pretty well settled that is any good.

How's everyone down there and what are you doing for excitement. There seems to be lots of dances, shows and ball games in this country. I really do like it here and so do the rest. I'm as brown as an Indian and ditto for the others.

Say hello to the gang for me  
Your friend,  
Vivian.

The C.P.R. is advertising tempting rates for the Dominion Day holiday season.

### Here and There

Premier Gordon S. Harrington, of Nova Scotia, has returned from his trip to Europe by the Empress of Britain.

Growth of all crops in western Canada is now vigorous and well advanced for the time of year, according to the latest weekly survey made by the Canadian Pacific Railway's agricultural department, and crop prospects in the West as a whole are encouraging.

Members of the British party touring the Dominion under the auspices of the British Columbian Government, arrived at Montreal aboard the Duchess of Bedford, travelled across Canada by Canadian Pacific rail and lake steamship, stopped over at Banff and will spend between June 15 and July 2 in British Columbia.

Delta Gamma, one of the most important Greek Letter organizations on the continent, is holding its annual convention this year at the Empress Hotel, Victoria, June 27-July 1. Stopping over at Banff, a Canadian Pacific special will carry delegates to the Pacific Coast from Chicago, while Canadian members from Montreal, Toronto and Edmonton will join the main group at Victoria.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931 when the total crop was close to a million and three-quarters barrels, is the opinion of leading fruit men of Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousand from Eastern Canada and the United States.

Miss Constance Regan, Middleburg, Va., established a record for women anglers on the Tobique River, New Brunswick, recently, when she took a 27½ lb. Atlantic silver salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 33½ lbs.

Canadian Pacific standard time is standard time the world over. Prior to 1883, every town and city had its own local time, based on the sun, but in that year the suggestion of Sir Sandford Fleming, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of these areas should be standard, was adopted all over Canada and the United States. In 1884 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Youngstown, O., has a grudge against windows and doors in office buildings and summer homes. He found both too narrow to admit a moose head with an antler spread of five feet five inches taken from a monster he shot near St. Jovite last season. "It looks," he wrote to A. O. Seymour, general tourist agent, Canadian Pacific Railway, "as though both the head and myself will end up in the garage." But that is the kind of trophy to be got in the forests of Quebec. Big heads and lots of them. (849)

### Don't Give Up Till Tomorrow

Oh, don't give up if they turn you down

Don't say die till you're dying  
Don't turn away with a weary frown

But try, and keep on trying.

Don't sit down if they won't let you ride;

Don't say slide, till you're sliding  
If you hold up your chin and master a grin

The trouble that's hid will keep hiding.

It's hard to grin without pen-nies to spin,

When you've nothing but holes in your pocket.

For although there's a bank you've nothing to thank

If you haven't a key to unlock it.

But the hours of the night seem darkest at dawn,

So perhaps some day you can borrow;

If you whistle a song when the wind's blowing wrong

You'll never give up till to-morrow.

### Canada Has Big Lumber Assets

Arising in the morning you step on a wood floor and continue to do so almost all day until retiring at night.

You lock or unlock your wood door.

You burn wood as kindling or in a fire place.

You invariably use wood stairway.

You sit at a wood table or desk on a wood chair.

You read a newspaper made from wood.

You use a wood pencil.

You use a match made of wood.

You smoke a wood pipe.

You glance at pictures in wood frames.

You wear rayon socks, ties, shirts etc., they are made with wood.

Cigarettes, confectionery and other products are now wrapped in cellophane, made from wood.

The records you use on your phonograph contain wood flour

Certain parts of your radio and auto contain wood flour.

The linoleum in your home is made with wood flour.

In your coal—wood mine props are vital in mining it.

A great deal of the twine you now use is made from paper. Similarly upholstery webbing in your arm chair is made from twisted paper twine.

The modern ocean steamer contains more wood than the frigate of Nelson's Day.

Railways use wood in car construction, ties, bridges, timbers and trestles.

Plywood and veneers and the many composition board with their thousands of uses are made from wood.

The modern steel sky-scraper uses more wood during construction than the buildings constructed before the inception of the steel structure.

Wood boxes and cases are used for packing of almost every commodity existing.

Arrowwood - Alberta

**Happenings In and Around Arrowwood**

Mr. and Mrs. R. N. Moir spent Sunday at Nanton.

Miss I. MacLeod left for her home at Innisfail Wednesday.

Born—To Mr. and Mrs. C. Culp, on Thursday June 30, a son.

Born—On Saturday, June 25, at Carseland, to Mr. and Mrs. J. Mackie, Jr., a son.

Mr. J. R. Shearer of Black Diamond was a week-end visitor in Arrowwood.

Mr. and Mrs. G. G. Smith and Mr. and Mrs. M. R. Leonard were Calgary visitors on Saturday.

The annual picnic of the Women's Institute will be held on July 5th, at the river.

The next meeting of the U. F. W. A. will be held at the home of Mrs. F. E. Bell on Thursday, July 7th.

Mrs. Rainville left on Sunday for Carseland, where she will visit with her daughter, Mrs. Sawyer.

Miss L. Spencer left Wednesday for her home at Rocky Mountain House before continuing to Edmonton where she will attend Summer School.

The Larsen Implements have further improved the convenience of their office by closing up the former doorway and putting in a new door at the corner.

Miss I. Mackie, Miss L. Spencer and Mr. H. McCullough have been re-engaged for the coming year as teachers in the Arrowwood School.

Mr. and Mrs. E. Lewendon and family leave to-day on a trip to Banff, Golden and other mountain resorts. They expect to return next Monday.

Mr. and Mrs. J. M. Weins returned last Thursday from a motor trip through the Peace River district. They report a very pleasant trip—no flats or car trouble.

Mr. Brown of the Milou-Queenstown circuit will conduct the service in the Arrowwood United Church on Sunday. Mr. Gilbert will take charge Mr. Brown's field for that day.

Rev. C. L. and Mrs. Fike, of Omaha, Neb., arrived in Arrowwood on Sunday by motor, on a visit to his brother, P. L. Fike. They expect to leave tomorrow for Crossfield where Mr. Fike will visit a sister.

The P.T.A. held their wind-up meeting for the year at the home of Mrs. Leonard last week. A report of this meeting, along with the Secretary's and Treasurer's reports will be published next week.

Mr. and Mrs. Walter Ward were visitors to Calgary on Saturday.

Mr. G. G. Smith purchased an Oakland coupe through the local agent, M. R. Leonard.

Mr. and Mrs. G. T. Jones of Gleichen were visitors at the Lyle farm on Wednesday.

Mrs. W. J. Holton, who has been staying at Mrs. Mackie's nursing home, returned to Milo on Wednesday.

Miss I. Mackie will be leaving Saturday for Edmonton where she intends furthering her academic standing at Summer School.

A full school report containing the promotions of the Arrowwood Public School pupils will appear in the next issue.

The Ladies' Guild of the United Church will hold a home cooking sale and afternoon tea in L. F. Chrestenson's store on Saturday, July 2nd.

Mr. and Mrs. Galen Mishler and Mrs. L. H. Irwin were entertained to dinner on Monday, at the home of Mr. and Mrs. W. C. Lyle.

Mr. Frank Johnston of Queenstown was in Arrowwood on Wednesday evening. He reports that the Army Worm is playing havoc in that district.

Mr. Earl Larsen of the Bank of Nova Scotia returned on Monday from his home at Weldon Sask., where he spent the past two weeks visiting relatives.

Last Saturday, at Calgary, Dorothy Hesketh tried her first year examination for the Toronto Conservatory of music and Hazel Taylor wrote her third year.

Last Monday afternoon Mrs. J. W. Shipley, who had been visiting with Mr. and Mrs. R. R. Saunders, received the sad news that her father had passed away at Edmonton. Mr. Saunders immediately left by car for Calgary where Mrs. Shipley entered an aeroplane to travel to Edmonton.

Four stretches of New Brunswick trout and salmon waters were sold at the Department of Lands and Mines recently for prices totalling \$3,850. These leases for a term of 10 years are on the Restigouche, Kedgwick, Matapedia and Big Sevoile Rivers and prices paid are the annual rental charges.

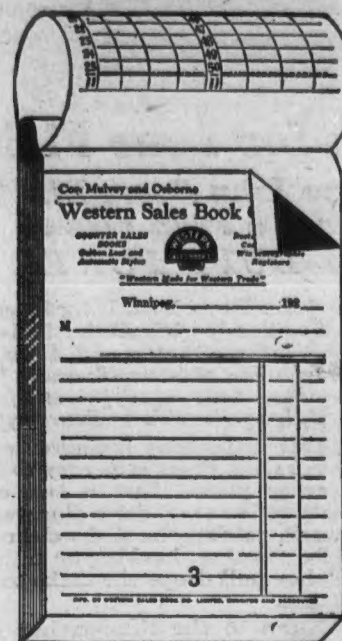

Daylight saving time, commencing in Quebec and Ontario provinces May 1, occasioned little confusion on Canadian Pacific travel. Travellers have nowadays learned that the railways remain on standard time and govern themselves accordingly. The railway announced a number of train time alterations prior to the introduction of daylight saving.

From little Norfolk Island in the South Pacific, one of the smallest units in the British Empire, an excellent sample of beans for exhibition at the World's Grain Exhibition and Conference to be held at Regina July 1933, has just arrived. Norfolk Island is the scene of the punishment of the mutineers of the "Bounty" in 1856 but it has long ago changed from a penal to a prosperous settlement. (841)

**More Ball**

It seems to us that nearly everybody would like to see the Arrowwood ball team playing more games. If games cannot be arranged with outside teams, why not organize a couple of evenly matched home teams.

**Place Your Order for Twine Now**

We are taking orders for that famous brand Holland Twine. Let us have your estimated requirements before the season starts so that you may be assured of an ample supply when the harvest starts.

As the harvest season is approaching it brings to your mind the fact that you are going to need repairs or maybe new equipment, power take offs, binders or even a tractor. Come in and let's talk it over on the 77c wheat plan, and other offers to buy at reduced prices.

Autolene—the life saver for gasoline engines—quality and satisfaction at moderate prices.

**Firestone Tires for Economy and Service**

For that vacation trip you are planning it would be a good idea to exchange that old casing for a new Firestone. Two extra cord plies under the tread at no extra cost.

Bring in your grease cans and have them filled from bulk at reduced quantity prices.
